

Seminars in Tokyo, Japan (Jan 2010)

On Jan 2010, we were proudly invited to have a seminar in two famous Japanese language schools in Tokyo, Japan.

More than 50 candidates attended to the seminar. In the seminar, we introduced the Japanese company culture and the expectations of Japanese employers towards their employees in HK.

At the end of the seminar, we had the Q&A session for the candidates to know more about the career opportunities, the latest HK labour market, and how the job agency can help in getting a better job.
